
SINNISSIPPI PHANTOMS | FIRST MEMORY

In Photochemical Time

I am three years old

Miming my mother the photographer in her Ozu camera angle

My paternal grandfather Joe who I never remember with dark hair behind my knee

My grandmother Alice frame right not unusually nervous

The unknown woman between them a sister of one of them, maybe it's Millie?

My brother Alan back turned in shy character, age 2

My brother Rick age 4 pensive over his red wagon

The Time stamp is a puzzle

The trees would be bare on that winter day

The birthday of the negative?
